OBJECTIVE

Computer Science Engineering student with strong foundations in Java, Python, SQL, System Design, OOP, and SDLC, seeking a software engineering internship at a product-based company.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering
Ananthalakshmi Institute of Technology and Sciences

Expected 2029
Anantapur, India

• B.Tech CGPA: 8.0/10

• 10th Grade: 9.7 CGPA

• Intermediate (MPC): 60%

SKILLS

Programming Languages

Java, Python, SQL

Core Computer Science

Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, SDLC

System Design & Arch.

Scalability Fundamentals, Monolithic vs Microservices, REST APIs, Database Normalization

Software Testing & QA

Functional Testing, User Acceptance Testing (UAT), Defect Identification

Tools & Analytics

Git, GitHub, VS Code, Data Validation, Microsoft Excel, Google Sheets

EXPERIENCE

Technical Student Coordinator

Nov 2025 - Present

College Coding Club & Institutional Quantum Club

Anantapur, India

- Coordinated operational schedules and timelines for a campus community of over 100+ active student members.
- Audited and summarized complex technical resources, ensuring data validation and processing accuracy.
- Collaborated with cross-functional student panels to resolve onboarding bottlenecks and streamline event delivery.

PROJECTS

Student Management System (Java). Developed an OOP-based Java application to create, update, search, and delete student records following SDLC principles. Strengthened exception handling and code encapsulation. ([Link](#))

Database Management Project (SQL). Designed relational database schemas and engineered optimized SQL queries for CRUD operations. Applied normalization principles to guarantee data integrity and built grouped analytical reports. ([Link](#))

Data Quality Analysis Framework (Excel). Built an analytical verification framework to isolate duplicate, inconsistent, and missing records using VLOOKUP, XML data validation boundaries, and conditional logic. ([Link](#))

EXTRA-CURRICULAR ACTIVITIES

- Active Core Member of the Innovation Hub and college Quantum Club, directing collaborative software programs.
- Participated in team code-review workshops, rapid development sprints, and collaborative problem-solving challenges.

CERTIFICATIONS

- Technical training completed in IBM Foundations of AI and AWS Introduction to Cloud Computing.
- Professional foundations accredited via Google Machine Learning Fundamentals, Python Programming, and AI Development.
